

Air Masses and Fronts Foldable

1. Fold both ends of a large piece of paper so that the ends meet in the middle of the paper.

2. On the front of the foldable, write "Air Masses", on the left hand side.
3. Under the title, write a definition for an Air Mass.
4. Draw an illustration showing the 5 U.S. air masses

5. On the front of the foldable, write "Fronts", on the right hand side.
6. Under the title, write a definition for a weather front.
7. Draw an illustration to represent a weather front.

8. **Open the foldable and draw a line down the center of the foldable.**

9. **On the left-hand side of the open foldable:**
 - **Write the names for each of the 5 U.S. air masses**
 - **Describe where they are formed**
 - **List their general characteristics**

10. **On the right-hand side of the open foldable:**
 - **Write the names for each of the four weather fronts**
 - **Describe the movement of air masses**
 - **Describe associated weather**
 - **Draw an illustration of the air movement at the front**
 - **Draw an illustration of their weather symbol**

Air Masses	Weather Fronts
