

Biodiversity

Vocabulary Terms

- Desertification
- Deforestation
- Biodiversity
- Species Diversity
- Genetic Diversity
- Monoculture
- Habitat Fragmentation
- Threatened Species
- Endangered Species
- Extinct Species

Notes

- What led to the Great Dust Bowl in the 1930's?
- What benefits do healthy forests provide?
- Why is biodiversity important in an ecosystem?
- What is the most diverse ecosystem on land?
- What is the most diverse aquatic ecosystem?
- What is the number one threat to biodiversity?
- What are two reasons that rainforests are being destroyed?
- How are coral reefs being destroyed?
- What are some other threats to biodiversity?
