

## Earth's Atmosphere Video Questions

Name: \_\_\_\_\_

Date: \_\_\_\_\_

- In which layer of the atmosphere can you find meteors?
  - troposphere
  - stratosphere
  - exosphere
  - mesosphere
- In the Stratosphere, which important feature blocks harmful rays from the Sun?
  - the Aurora Borealis
  - the ozone layer
  - the sunray shield
  - all of the above
- Which gas makes up most of the troposphere?
  - oxygen
  - helium
  - nitrogen
  - hydrogen
- Which layer of the atmosphere is the one we live in?
  - troposphere
  - stratosphere
  - mesosphere
  - thermosphere
- What does the Earth's atmosphere do?
  - create meteors
  - regulate temperatures
  - control populations
  - provide light
