

Ecological Interactions

Vocabulary Terms

- Resource
- Competitive Exclusion Principle
- Predation
- Herbivory
- Keystone Species
- Symbiosis
- Mutualism
- Parasitism
- Commensalism

Notes from Reading

- When does competition occur?
- How do niches help reduce competition?
- Why are sea otters considered keystone species?
- Which organisms benefit during mutualism?
- Which organism benefits during parasitism and what happens to the other organism?
- Which organism benefits during commensalism and what happens to the other organism?
