Non-Native Invasive Species	
<ul> <li>Directions</li> <li>Once you have drawn a non-native invasive species, research your species</li> <li>Record the information below</li> <li>Be ready to present your information to the class</li> </ul>	on the web
Name of your non-native invasive species:	
How was your species introduced to the new area?	
What effect has your species had on its new environment?	
What steps are being taken to reduce the effect or spread of your species?
