King Henry Died By Drinking  
Chocolate Milk

Rules – If no decimal, assume  
it's at the end of number

On the khda b dcm line,  
begin at the unit that is  
given and move right or  
left, until you reach the  
required unit.

If the decimal ends up in front of the number, always add a zero in front of the decimal.

Fill in any spaces between the decimal and the numbers with zeros.

• Examples:

1. K H D B D C M  
    ↪ ↪ ↪

$$5.3 \text{ km} = 5.3 \text{ 0 0} = 5300 \text{ m}$$

2. K H D B D C M  
    ↪ ↪ ↪

$$2.4 \text{ mm} = \text{0 0 2. 4} = 0.0024 \text{ m}$$
