

## Plate Boundaries and Associated Geological Features

Use your notes to complete the following chart by placing the following terms in their proper place:

Ocean Formation, Volcanic Islands, Only Earthquakes , Oceanic and Oceanic, Rift Valleys, Continental and Continental, Deep-Sea Trenches, Oceanic and Continental, Mid-Ocean Ridges,  $\rightarrow \leftarrow$  , Volcanic Mountains, Folded Mountains,  $\leftarrow \rightarrow$ , Subduction Zones, any type of crust, Oceanic and Oceanic, Continental and Continental, Tsunamis.,  $\downarrow \uparrow$

Type of Plate Boundary	Crusts Involved	Direction of Movement	Geological Features
Divergent			
Convergent			
Transform
