

## Review Quiz for Latitude and Longitude

Name: \_\_\_\_\_

Date: \_\_\_\_\_

1. Which of the following is NOT true of lines of longitude?
  - A. They are semicircles
  - B. They measure distances east and west of the prime meridian
  - C. They run from pole to pole
  - D. They are parallel lines

2. Use the diagram to answer the next question.

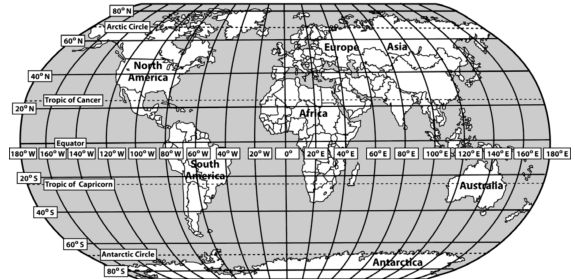

What is the line of longitude that is west of the prime meridian, halfway between 0° and 180°?

- |                    |                    |
|--------------------|--------------------|
| A. 90° E longitude | B. 45° E longitude |
| C. 90° W longitude | D. 45° W longitude |
  
3. Which of the following animals would you most likely find at 80°N and 20° West?
 

A. Toucan bird	B. Lion
C. Polar Bear	D. Penguin

4. Use the map to answer the next question.

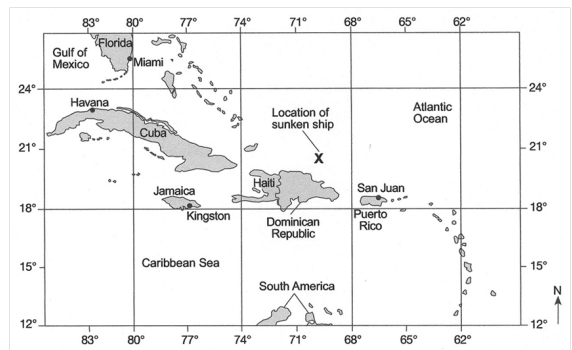

**The World**

30° S, 60° W is the location for

- |                   |                   |
|-------------------|-------------------|
| A. South America. | B. North America. |
| C. Australia.     | D. Asia.          |

- 5.

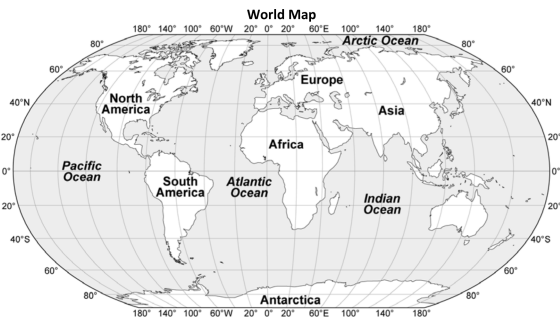

Based on the map, what are the coordinates for the sunken ship?

- |                    |                    |
|--------------------|--------------------|
| A. 70° N and 20° S | B. 20° N and 70° E |
| C. 20° N and 70° W | D. 20° S and 70° W |

6. How are latitude and longitude lines drawn on a globe of Earth?
- A. Latitude lines are parallel to the equator and longitude lines meet at the poles.
  - B. Latitude lines are parallel to the prime meridian longitude lines meet at the equator.
  - C. Longitude lines are parallel to the equator and latitude lines meet at the poles.
  - D. Longitude lines are parallel to the prime meridian and latitude lines meet at the equator.

7. What is the  $0^{\circ}$  reference point for lines of latitude?
- A. the International Date Line
  - B. the  $180^{\circ}$  meridian
  - C. the equator
  - D. the prime meridian

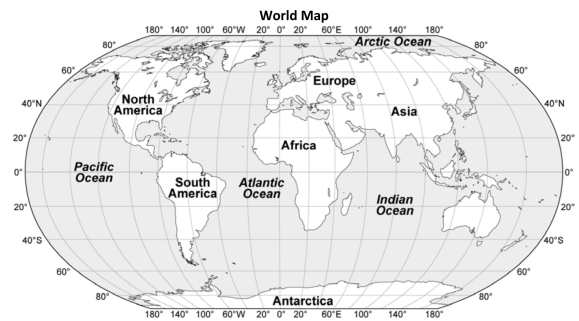

8. Use the map below to answer the following question.

In which hemispheres is **most** of South America located in?

- A. Northern hemisphere and eastern hemisphere
- B. Northern hemisphere and western hemisphere
- C. Southern hemisphere and eastern hemisphere
- D. Southern hemisphere and western hemisphere

9. What is the  $0^{\circ}$  reference point for lines of longitude?
- A. the equator
  - B. the prime meridian
  - C. the International Date Line
  - D. the 360th meridian
10. Use the map below to answer the following question.

A ship is at  $20^{\circ}$  south latitude and  $80^{\circ}$  east longitude. Which *best* describes the location of the ship?

- A. in the middle of the Indian Ocean
- B. off the west coast of Africa
- C. off the west coast of South America
- D. in the middle of the Arctic Ocean
